

## RIVIERE RUGS

A focus on texture, colour and abash allied to highly complex weaving techniques are the key to this new collection being launched by Riviere. Shown here is the Royal Pavilion rug which is inspired by the opulent patterns dating from the Mughal Empire. It summons only the most highly skilled artisans to create such intricate weaving. Woven in no less than 150 knots per sq/inch in the finest wool and Sari silk, Royal Pavilion is an elegant and sophisticated design with celadon hues, touches of rose and varying tones of greys and sage creating a labyrinth of detail.
